4

C: Read the following passage and match each paragraph with one of the headings. Write the letters (A, B,C,D) in front of the paragraphs.

(A)The danger of using less protein

(B) The role of plants in making protein

(C) The meaning of malnutrition

(D) The importance of protein foods in our body

54. Some animals depend on plants for their food. Proteins are built up by plants .Animals can't make proteins in their bodies; the human body must get protein readymade. Therefore the plant is the factory which can provide protein.

55. Everyone should use protein foods such as meat, fish, milk, eggs and cheese. These foods consist of protein which is necessary for our health. Protein makes the material blood, skin, muscles and bones. Of course, rice and vegetables are not protein foods.

56. One man eats a little protein. Another man eats enough protein. These two men have different diets. People who live in an area where their bodies can't get enough protein certainly face malnutrition and become sick. Because of this, African children have thin hands and arms.

57. Malnutrition means bad nutrition. It is the time when the body can't get some useful nutrients of food such as protein for a long time.

D:Read the following passage and answer the questions as required

James Joyce was born on February 2, 1882 in Dublin. He grew up in a large family of 10 children and attended Clongowes Wood College and later Belvedere College in Dublin. A very good student at college, Joyce went on to study languages and philosophy at the Dublin College of the Royal university. He spent a good part of his early life in Ireland, attending to his dying mother. In 1904 Joyce married, and Joyce's first attempt to publish *Dubliners* in 1912 was unsuccessful, and he spent the next several years in **poverty** in Zurich. He spent the later years of his life in Paris, where he published such works as *Ulysses*, and in 1939, *Finnegan Wake*. Joyce died in 1941.

4
