۳	<p>Reading 1:</p> <p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>Respect is an essential part of human life. What we do when we respect someone is that we recognize their value. When you disrespect someone you are really doing nothing other than saying to someone —you are not valuable.—You are not worthy Respecting others is a silent way to express our feeling for them. It's an unspoken way of communication which builds unshaken and strong relations between people respecting each other. When a person shows respect for someone, then it means that the person has some value for him. His advice and suggestions are important for him. It is very important to respect one another in any relationship. It is impossible to have a good relationship work out, so there has to be an over-riding high regard for one another, even if there are disagreements. How can you treat someone well when you feel they are unworthy and have no value? How can you be helpful to them when you feel they have nothing to add? How can you have a high opinion of someone who views you as unworthy and value-less?</p>	۱۳

۴	<p>Reading 2:</p> <p>متن زیر را بخوانید و به سوالات داده شده هر قسمت پاسخ دهید.</p> <p>It may be known that recycling helps keep tons of waste out of our landfills. But did you know that recycling helps save energy, too? The things we recycle, like drink cans, newspapers, glass, and cardboard can be used to make new products.</p> <p>Companies that make new products from recycled materials use 30 percent less energy. That’s because they don’t have to process the raw materials from scratch. For example, a company called Cedar River Paper makes cardboard boxes by recycling paper products. If Cedar River Paper didn’t use recycled materials, they would use up a lot of trees – and a lot of energy to cut them down, and transport them hundreds of miles. Everything that is recycled at home and school helps save energy – so keep up the good work.</p> <p>You can keep doing good work when you’re buying things, too. The next time you go to the store keep an eye out for products that say “ Made from recycled” on the package.</p> <p>Answer the questions.</p> <p>49. How can we keep doing good works?</p>	۱۴

۳	<p>برای هر یک از پاراگراف های زیر یک topic sentence بنویسید.</p> <p>64. Learning Some languages are easier to learn than others. Maybe you're great at conversing at Farsi, but can't write in English. Despite the difficulties, multi-language learning is quickly becoming popular around the world and to be a bilingual is becoming important. We need to know some useful ideas to learn a new language.</p> <p>65. Elders. It is also important to note that elders were not born elders; they were kids like us and now have grown old. A few years later, hence, we will also grow older. If today we respect them, our present and future generations will carry those values and will learn to respect us as well when we grow old.</p> <p>66. There are</p> <ul style="list-style-type: none"> • Learner Dictionaries use simple vocabulary in their definitions to help English Language Learners understand what words mean; they do limit the number of definitions they present, so they may not be the best choice for more advanced English students. • Bilingual Dictionaries allow you to see the English definitions and a translation of the word into another language; however, using this type of dictionary can make it more difficult to remember the word later, since you are already familiar with the word in the other language. • Native English Dictionaries will give the most definitions of a word, but not all are created equal. Choose a dictionary based on your variety of English (American vs. British, for example) that includes links to other forms of the word, example sentences of word use, and synonyms and antonyms. 	۱۸
